MEMORANDUM FOR THE RECORD

SUBJECT: Admiral de Poix' Views on the R&D Council

1. In conversations held this date, Admiral de Poix confirmed my own view that the R&D Council needs to be tasked with specific objectives soon or it can wither.

2. I have reviewed the agenda with [REDACTED] which is to be proposed to Mal Currie for the next session. One specific item I've asked to be included is to provide the Council views on the DCI's Objectives to the President which concern technology assessment. This will be done.

3. Vince has recently held a program with DIA and industry over R&D and what industry can do to assist intelligence R&D. He has agreed to present the outcome to the Council in an upcoming meeting, and I propose the DCI attend that session. I've asked the R&D Secretary, [REDACTED] to take this subject up with Currie for his views as well.
